

Lifespan of Festival of Sharing Kits & Packs

The booklet is mailed to churches and supporters in February.

Kit elements and estimated costs are printed in the FOS booklet.

Supporters read the booklet and decide which kits or packs they will focus on.

Supporters purchase supplies and assemble kits using BLT: Box, Label, Tape.

Volunteers at the Sharefest count and organize donations in the morning.

Completed kits make the journey to one of our Sharefest events in September or October.

Agency partners, like food pantries and community centers, join the Sharefest in the afternoon to pick up their allocated kits and packs. Kits are then taken back to the agency and distributed in their communities.
