

Lifespan of Festival of Sharing Kits & Packs

1

Kit elements and estimated costs are printed in the FOS booklet.

2

The booklet is mailed to churches and supporters in February.

3

Supporters read the booklet and decide which kits or packs they will focus on.

4

Supporters purchase supplies and assemble kits using BLT: Box, Label, Tape.

6

Volunteers at the Sharefest count and organize donations in the morning.

5

Completed kits make the journey to one of our Sharefest events in September or October.

7

The agencies we support, such as food banks and community action centers, join the Sharefest in the afternoon to pick up their allotted kits and packs. Kits are then taken back to the agency and distributed to their clients.
